ABOUT ME

I am a passionate and dedicated web developer with a strong background in frontend development using ReactJS and Tailwind CSS. I have a keen eye for design and am skilled in graphics design, applying fundamental design principles to create visually appealing and user-friendly interfaces. I am well-versed in web development architecture and have a thorough understanding of how to integrate frontend interfaces with backend systems.

SKILLS

• Strong understanding of web development technologies such as HTML, CSS, and JavaScript

• Frontend development using ReactJS and Tailwind CSS

• Skilled in graphics design for web development, including fundamental design principles

• Experienced in backend development

• Knowledgeable in database management, SQL, and NoSQL

• Familiarity with Git and version control systems (including Github)

• Proficient in programming languages such as C++, Python, and JavaScript.

• Knowledgeable in utilizing prompts for chatbots and other AI tools.
